But how will it promote the ends of justice to permit negro testimony to go before juries in cases involving the life or rights of white men? We answer that every lawyer, judge, and grand jurymen in the State knows that our laws are violated in thousands of instances with impunity, simply because juries are not allowed to bear all the testimony that could throw a certain highl upon the case. While negro litigants have the benefit of all the testimony, white or black, that can elucidate questions in which they are luvolved, white litigants are restricted to white witnesses.
